

Taxpayer-funded Vehicles For Your California State Assembly Members

Fifty or so years ago, our exalted (aka, arrogant) legislators decided they were entitled to force California's overtaxed citizenry to provide them with cars of their choice at taxpayer expense. Of course they never asked the taxpayers (that'd be you) to approve of this wasteful, abusive and unwarranted largess. Of course they well knew that had they placed a referendum on the ballot seeking your approval for this scam, it would have been soundly defeated.

With all due disrespect to our esteemed legislators (they're unfortunately mine now that I moved to California), I believe they should erect a sign on the front lawn of the statehouse as follows:

Cars R Us

When this raping of the taxpayers took place, your legislators (I lived in Ohio at the time, so I refuse to accept any personal responsibility) allowed for the following conduct:

- To personally shop for and select vehicles of their choosing
- Order any options without regard to cost
- Obtain a vehicle prior to taking office (private citizen at the time)
- Shop for and select vehicles before being elected
- Family members are permitted to drive your vehicles
- Authorize unjustified (outrageous) repairs on vehicles that in some instances exceeded the value of the vehicle (\$10,777 on vehicle worth around \$6,500)

In addition to the above, all legislators are provided with a state charge card for the claimed purpose of purchasing fuel. Also, there is absolutely no written policy on the purchase of or use of these vehicles, a fact that is rather hard to believe. Put simply, there is absolutely no accountability of any kind.

The information contained in the text boxes below relates to fuel usage by members in all 80 assembly districts from 1975 to 2008. The information contained in the test boxes is as follows:

- Year fuel was purchased
- Dollar amount of yearly fuel purchases (based on gov't averages)
- Gallons of fuel purchased
- MPG on yearly basis based on government averages + total of mileage
- Total gallons purchases in a given year with total at end of column

Prior to each text box you will see the following information, which is described as follows:

District Facts re: Vehicle Use

- ◆ Most miles driven by a member
- ◆ Highest average mileage per year by member
- ◆ Highest overall maintenance costs for term-of-office by member
- ◆ Highest average yearly maintenance costs by member
- ◆ Total mileage for all members from 1975 through 2008

Quintessential Travelin' Man/Woman

The information under this heading is as follows:

- ◆ Most miles driven in one year by district member
- ◆ Miles driven per day by district member ¹
- ◆ Hours spent per day driving by district member

¹ These figures were arrived by subtracting days legislature is in session, which leaves about 145 days per year that legislator in his/her home district (venue where your cars are domiciled).

Los Angeles County Assembly Districts 36 to 61

Due to the size and breadth of assembly districts within Los Angeles County, I have prepared a separate document regarding these districts. You can view these districts by clicking onto LA Assembly Member Car Abuses under "California Reporter."

Assembly Districts are listed numerically from 1 through 80.

1st Assembly District Eureka

District Facts re: Vehicle Use

- ➔ 770,680 = most miles driven – Stan Statham
- ➔ 42,815 = highest average yearly mileage – Stan Statham
- ➔ \$47,243.51 = total maintenance costs – Stan Statham
- ➔ \$2,625 = highest average yearly maintenance – Stan Statham
- ➔ 972,451 = total member mileage – 1975 to 2008

Quintessential Travelin' Man/Woman

- ◆ 65,566 = most miles driven one year – Stan Statham
- ◆ 452 = in-district miles per day – Stan Statham 1986
- ◆ 10.0 = in-district driving hours per day (45 mph)– Stan Statham
