

Recall Judge Peter McBrien

Multiple victims (too many to mention herein) of Judge Peter McBrien of Sacramento County Superior Court have filed a petition for his recall. A copy of the petition can be found at www.judgerecall.net.

The litany of the obscene and in many instances unlawful actions taken by Pete in placing children at risk by granting custody to abusive parents and thereby ruining a child's life and the affected parent are quite troubling to say the least. Additionally, Pete has destroyed the lives of an untold number of men and women seeking a divorce in his so-called court by engaging in arbitrary and unconscionable conduct in (a) awarding alimony and (b) in the division of marital property.

To refer to Pete as the "hanging judge" would be unfair to the legacy of now-deceased U.S. District Judge Isaac Charles Parker of St. Joseph, Missouri. It was reported that prior to Isaac's demise he suffered from "Bright's Disease," something that Pete won't have to worry about contracting.

Ironically Ol' Isaac spent 21 years on the bench (same as Ol' Pete) before his removal via a wooden robe. After the U.S. Supreme Court was empowered to review the death sentences imposed by Isaac in 1889, two-thirds of his convictions were reversed, thereby proving the moniker "hanging judge" was in fact appropriate. Unfortunately, Ol' Pete seems to possess many of Ol' Isaac's traits when it comes to riding roughshod over the rights of those who appear before him in Family and/or Probate Court in Sacramento County.

The voters and citizens of Sacramento County cannot in good conscience allow a Judge Isaac Parker Wannabee like Peter McBrien to remain on the bench. The suffering he has caused to those who have unfortunately appeared before him must come to a screeching halt. Moreover, Ol' Pete forever forfeited his right to remain on the bench when he cheerfully engaged in the commission of a felony by causing the destruction of government owned trees to improve his view of the American River.

Lastly, the evidence clearly demonstrates that Peter McBrien has dedicated his rather insignificant and inglorious judicial career to the total avoidance of propriety

WANTED FOR BEING A CROOKED JUDGE

Judge Peter (Paul Bunyon) McBrien

Sacramento County Superior Court Judge Peter (aka, Paul “the Sawz” Bunyon), is what we call a triple threat. He’s (1) intellectually insolvent, (2) ethically deprived, and (3) an inept criminal. This is of course a dangerous cocktail to say the least. Some of Pete’s finer achievements while in office are:

- Feloniously destroyed mature trees on public property for the sole purpose of improving his families view of the American river
- Awarded custody to sexually abusive father
- Awarded custody to mother who physically abused young daughter
- Treats his oath of office and those who appear before him with contempt

The California Supreme Court refuses to remove McBrien even though it is abundantly clear that he is a threat to the families that are forced to appear before him. Enough is enough! It is now time for the voters of Sacramento County to do what the enablers and apologists for the Judicial Industry refuse to do and that is sign the recall petition so that justice can be dispensed and not dispensed with.

Judge Peter McBrien Sacramento's No. 1 Judicial Misfit

Only you can
stop Pete!

Unfortunately for the good citizens of Sacramento County, Pete has been sitting on the bench for over twenty-one (21) years. The victims of Pete's demented and perverted conduct will never be known; however, it would be safe to say that it numbers in the hundreds if not the thousands.

It is apparent to me that Pete enjoys inflicting punishment on those who are unfortunate enough to have had their cases assigned to him. I think it would be fair to say that Pete is to justice what Jeffrey Dahmer was to fine dining.

When Pete decided to lay waste to mature trees on government property in order to improve his and his family's view of the American River, he absolutely knew that he was committing a felony. It would be frivolous to the nth degree for anyone with an I.Q. exceeding the legal limit for Semi-trucks on Highway 50 to argue that Pete deserved to remain on the bench after committing the aforementioned felony. Sadly, the California Supreme Court and its enablers and apologists felt it was appropriate to saddle folks in Sacramento with an acknowledged felon.

Pete's punishment at the hands of the California Supreme Court for engaging in felonious conduct was a complimentary public reprimand, which is akin to a Soccer Mom scolding her son for un-sportsman like conduct on the soccer field.

It is indeed a sad day in the history of jurisprudence when a known felon is allowed to judge the credibility of mothers and fathers involved in custody disputes or wives and husbands involved in the equitable disbursement of marital assets.

Only you (the voters of Sacramento County) can remedy these ongoing injustices that Peter McBrien dispenses on a daily basis by signing the petition for his recall and then voting him out of office.

Please go to www.recallobrien.com and fetch you a recall petition or two to assure that Pete's reign of terror will come to a screeching halt.
